

Mid Murray LAP Presents The Pro-Nuclear Environmentalism

Nuclear Power: From Opponent to Proponent
Presented by Ben Heard -Director of
ThinkClimate Consulting and Founder of Decarbonise SA

“A long time opponent of nuclear power, I began re-examining this source of power in response to a growing understanding of extent of the climate crisis. I believed I may find it to be a necessary evil. Instead I found that it is not just necessary, it’s essential, and it is not evil but misunderstood. We are putting the safety of our civilisation and the security of our energy supply at risk by refusing to discuss this safe, clean, reliable and plentiful power source. I want to change that”

Mid Murray LAP
Annual General Meeting
Date: 10/11/2011
Time: 6:30pm
Venue: Mannum Leisure Centre
Senior Citizens Room
RSVP: 7/11/2010
Contact: Warrick Barnes
